INTERESTS

- UI/UX Design: Passionate about creating seamless and intuitive user experiences, staying updated on design trends and principles.
- Continuous Learning: Enthusiastic about staying abreast of emerging technologies and methodologies in the ever-evolving field of front end development.

ABOUT ME

Innovative Lead Front End Engineer with a proven track record of delivering cutting-edge UI/UX solutions for renowned clients. Expertise in JavaScript, HTML, CSS, React, and WordPress, driving technical strategy and project execution. Adept at leading multidisciplinary teams, mentoring engineers, and fostering a culture of excellence. Passionate about crafting highly componentized systems and advocating for coded style guides.

WORK EXPERIENCE

LEAD FULL-STACK DEVELOPER

Africalla Kenya Ltd. Nairobi, Kenya
June 2019 - January 2024

- Orchestrated the development of bespoke UIs for top-tier clients, including ESPN, Google, The New York Times Co., Microsoft, and The Nobel Prize Committee.
- Facilitated client engagement through impactful demos and constructive discussions, ensuring alignment with project objectives.

FRONT-END ENGINEER

East Afrisat Communications · Full-time Nairobi Kenya
August 2016 - May 2019

- Leveraged modern web technologies such as React and WordPress to create engaging user interfaces.
- Collaborated cross-functionally to develop responsive websites and applications, prioritizing usability and performance optimization.

SKILLS

- JavaScript (ES6+): Proficient in developing complex web applications using modern JavaScript syntax, including ES6 features.
- React.js: Proficient in building interactive and dynamic user interfaces with React.js, leveraging component-based architecture.
- Responsive Web Design: Knowledgeable in designing responsive websites.
- Client Engagement: Proficient in engaging with clients and conducting presentations.
